🧭 Summary

Innovative and reliable **Software Engineer** experienced in **backend architecture**, **AI automation**, and **machine-learning-driven systems**.
Focused on building scalable, intelligent platforms that blend engineering and data science.

Recent highlights

- Built **AI-powered automation** using **Cloudflare Workers**, **ChatGPT API, Algolia**, and **cloud DBs**, powering multilingual news platforms (Trippinoo.com, Che-Khabar.com).

- Designed **autonomous crypto-trading bots** combining ML models, Kafka/Faust stream-processing, and TensorFlow Serving.

- Led volunteer **AI image-generation and creative automation** projects.

💼 Experience

Bitpanda — Software Engineer | *Barcelona | Apr 2022 – Present*

- Built and maintained **verification/onboarding microservices**.

- Integrated **KYC/AML providers** and event-driven workflows.

- Improved system reliability and automation across backend services.

1DES — CTO & Co-Founder | *Barcelona | May 2020 – Present*

- Led architecture of **AI-driven trading platform** with real-time analytics.

- Developed **stream-processing pipelines** (Kafka, Faust) and ML forecasters.

- Managed cloud infrastructure (Docker, Ansible, GCP/AWS).

- Founded **AI & Trading Academy** to share research and automation methods.

DOTRAVEL Ltd — Founder / CTO / Senior Developer | *Barcelona | Jan 2017 – Jul 2021*

- Created and scaled a travel-marketplace platform.

- Developed API-based accounting and supplier systems.

- Transitioned from hands-on developer to team leader and architect.

Websays — Go Developer | *Jul 2021 – Apr 2022*
Built backend APIs and data pipelines for social data analysis.

Universitat Pompeu Fabra — Web Developer | *Jan 2019 – Apr 2022*
Developed academic digital tools and visualizations.

Freelancer — Full-Stack Developer | *Sep 2015 – Apr 2020*
Delivered 100+ projects including fintech platform *Dinero*.

Gatriya (Iran) — Founder & CEO | *Oct 2006 – Dec 2015*
Launched 300+ websites via the GCMS framework and built web-based accounting and Android apps.

🎓 Education

M.Sc. Intelligent Interactive Systems — Universitat Pompeu Fabra (2015 – 2018)
B.Sc. Computer Software Engineering — Shamsipour Technical College (2005 – 2008)
A.Sc. Computer Software Engineering — Shahid Bahonar University of Kerman (2000 – 2005)

⚙️ Technical Skills

Languages: PHP, Python, Go, JavaScript, Node.js, Java
Frameworks: Laravel, Symfony, Flask, Express, GCMS
DevOps: Docker, Ansible, Git, Linux, GCP, AWS, DigitalOcean
Data & ML: Pandas-TA, TensorFlow, Scikit-Learn, NumPy, FastStream, Redis, Kafka
Frontend: HTML5, CSS3, Tailwind, Vue.js, jQuery
Cloud & AI Tools: Cloudflare Workers, ChatGPT API, OpenAI, n8n, Algolia, Algolia
Other: Agile, CI/CD, Jira, Notion, API Design, Distributed Systems
